Florida Council on the Social Status of Black Men and Boys' Statement to the Survivors of the Earthquake in Haiti

TALLAHASSEE, FL – Chairman Anthony D. McCoy today issued the following statement to the survivors of the earthquake in Haiti:

“The Florida Council on the Social Status of Black Men and Boys expresses its deepest sympathies to survivors of the earthquake in Haiti. We are shocked by the estimates of death and we are heart stricken over the loss of children.

We know that the needs of the living trapped in rubble, those free but injured, and those homeless and hungry need immediate relief for survival. The Council encourages all Floridians to support relief efforts without delay through charities of their choice. May all of us continue to provide assistance during the difficult days ahead.”
