Tips for Victims of **Cybercrime**

If you think you are a victim of a cybercrime:

Secure devices by changing all passwords;

Preserve evidence by taking screenshots;

Report the crime to FDLE's Computer Crime Center;

If the crime involved unauthorized access to financials, notify your bank and credit card company—monitor financials to check for identity theft; and

Update antivirus, firewall and security software.

Remember, prevention is crucial in avoiding cybercrime. Visit MyFloridaLegal.com/ConsumerAlert for information on safe internet habits.
